

Introducing name&place

Manage your research project in a dedicated cloud database environment.

Name & Place enables you to have a **holistic overview** of your research with a drill down view to each **person and place** to see how they **interact over time**, and publish to **your own website**.

Record

Input your data in specially designed forms
Import from spreadsheets & GEDCOM
Full sourcing using academic standards

Discover

Logically structure your research
Connect each record, event & fact
Explore your project through its layers

Analyse

Reports & graphical tools to view your data
See names & places as individuals & groups
Identify trends & paths to further research

Share

Your own website to promote your project
Make connections with other researchers
Data exports to Excel & PDF

Cloud solution

Secure data storage & backup
Control your data with full export facilities
Works on all platforms, PC, Mac, Linux etc.
Continual software updates & **full support**
New features coming in 2021 & beyond

Start your free trial today

Register your project
and enjoy a **no-obligation*** free trial
to see how Name & Place
can help **you**.

Credit card details are required at sign-up but no charge is made until the end of the free trial period. You may cancel at any time during the free trial period.
