

Tree Vault[®]

CLOUD SERVICES

by

Family Tree
Maker[®]

Sleep better.
Make a cloud tree.

With a TreeVault subscription, Family Tree Maker is no longer an isolated desktop application, but rather the hub of a growing ecosystem of mobile apps and cloud services. View changes in your FTM tree in realtime on your smartphone or tablet. Know what the weather was like the day your grandfather was born. Sleep better knowing that an up to date copy of your tree is securely tucked away in the cloud, that someday will be passed on to the next generation for you. New services will be added over time, but here's the starting lineup:

TreeVault Cloud Services

- **Emergency Tree[®]** restore service. TreeVault keeps a cloud copy of your tree updated every 15 seconds ready to hand back to you if your hard drive should crash or some other catastrophe strikes.
- **Family Tree Maker Connect** is a FREE mobile app (for iPad, iPhone, and Android) that displays your latest FTM tree anywhere, any time – even when your computer is off. Handy for using your iPad as a second monitor. Or to get your relatives to fact check your tree and drop you “sticky note” hints.
- **Historical Weather[®]** enables you to set the scene for events in your family story with more than a BILLION historical weather records. Dates will never be boring again.
- **Next of Kin[®]** allows you to designate a successor to your TreeVault account to pass along your family tree and research records. You will get a certificate that may be included with a will, providing instructions and passcodes for taking over your account along with your copy of Family Tree Maker.
- **AlbumWALK[™]** connection. Create talking photos with AlbumWALK with embedded SoundSpot[™] recordings for each person in the photo. With a TreeVault subscription you can see your entire family tree list inside AlbumWALK so you link each SoundSpot to a person in your Family Tree Maker tree.*

**Coming soon for iOS and Android.*
