- Contact Information

Include a biography to convince potential
clients that you are the right professional
for their needs.

Join APG to network with nearly 3,000
colleagues who specialize in all aspects
of professional genealogy.

The Association of Professional Genealogists (APG) is a not-for-profit 501(c)(6) professional organization dedicated to the growth and enhancement of the genealogical profession. Founded in 1979, APG is the world's largest association for professional genealogists, representing nearly 3,000 members in forty countries around the world. We provide education, advocacy, best practices, and a professional community to our members in order to secure records access and to help advance their careers and the genealogical profession as a whole. We also seek to protect the interests of clients engaging the services of a professional genealogist and the public perception of the field of genealogy.
